

# CUBERS

1 x 60'

Once they were heroes.

An elite group of adolescent misfits with mathematical brains and an obsession with a toy that captured the world's imagination:

The Rubik's Cube.

Now after 25 years of cultural obscurity, CUBERS, a rare breed of brainiacs who can solve the Rubik's Cube in less than 30 seconds, finally have an opportunity to be crowned World Rubik's Cube Champion.

They solve it blindfolded, with one hand, with their feet, underwater, and jumping out of airplanes. They have weekly competitions in the virtual world and have developed an online community.

More importantly, they are faster and younger than ever and from all over the world.

CUBERS follows the journey of six international Speedcubers as they make their way through the bizarre and surprisingly cut throat world of the Cube in their quest to be the fastest CUBER in the World.

CUBERS is more than a story of gifted outsiders from around the globe who share an unusual fascination. It is a universal story about the need to belong and the drive of the human spirit to overcome great obstacles while achieving the seemingly impossible.

**Battling to win. Battling to fit in. CUBERS ~ this isn't just a game.**

*Red Cube Productions, 2008. Canadian Broadcaster: CBC (The Lens). International rights available, all media.*
