

# re:think Announces Forgiveness Deals

CANNES, October 15: The one-hour documentary special *Forgiveness: Stories for Our Time*, which picked up an award at Hot Docs, has been licensed into Spain and Finland by re:think Entertainment.

The film, produced by Johanna Lund and Wild East Productions of Nova Scotia, has been acquired by Odisea in Spain and YLE TV1 in Finland. Through interviews and archival footage, the film looks at four people as they cope with the murder of loved ones. Among those featured are the husband of a young woman killed in an IRA bombing, and a vicar who lost his daughter in the London Underground bombings in 2004.

The new deals follow the Sky pickup earlier this year for the Real Lives HD channel, where it aired as *Murder: Moving On*. At MIPCOM, re:think is offering up the European rights outside of the U.K., Finland and Spain. North American and Asian rights are handled by the National Film Board (NFB) of Canada.
