

# VOYAGE OF DISCOVERY

SEEKING pre-sales at MIPTV, Re:think Entertainment has teamed up with Canada's High Seas Productions to develop *Papa Earth: Rangi Sky* (9 x 60 mins). The HD series will follow the seven-member crew of the Endangered Islands Expedition on their two-year mission to research the last remote island cultures in the Pacific and Indian Oceans. Entirely unscripted, the story will unfold as the expedition evolves.

Also new from Re:think is the teen travel series *Get Outta Town!* (13 x 30 mins) from Canada's Nightingale Group. Launching on TVOntario and WHAM! in the US, the series takes teens on a journey to some of the world's greatest cities, including Sydney, Paris, Washington DC and Shanghai.
